- ✓ To become a part of a national network of voters committed to good government
- ✓ To achieve personal growth

LWV Then...

The League came into being in 1920, the year voting rights for women were written into the Constitution. It grew out of the National American Women Suffrage Association, which spearheaded the 72-year drive to get women the vote.

And Now...

Today, the men and women of the League build citizen participation in the democratic process through education and advocacy. The League sponsors candidate debates, information forums, and community conversations. The League takes action on policy positions supported by our members.

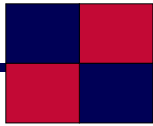

We...

- Study and reach member agreement before taking a position on any issue.
- Take action on specific issues, we lobby, testify, and write—in order to influence public policy.
- Never support or oppose specific candidates for elected office.
